

# AQUA POINTE™

## VersaFiller™ and Oasis® coolers The perfect water friendly solution.

### Introducing the Oasis VersaFiller bottle filler.

This unit can be retrofitted to existing P8AC and P8AM coolers or purchased as a complete top and bottom combination. Enjoy the best of both water options: refreshing fountain water and a bottle filler unit for the refillable bottles that are now very popular and less wasteful. The VersaFiller alcove and activation button contain Freshield, which utilizes a silver-based antimicrobial compound. This is ideal for work-place settings, schools, university locations, and any public building.

*The VersaFiller alcove is tall enough to accommodate most sizes of refillable water bottles on the market.*

*The VersaFiller is able to dispense water, even when the electricity is off.*

### Oasis continues to be the world leader in water friendly solutions.

For over a hundred years, the Oasis name has been the benchmark of dependable, high quality bottle coolers, pressure coolers and drinking fountains. We continue to offer a vast array of models and innovations that will suit any need or specification.

*Oasis is the only manufacturer certified by NSF*

OASIS INTERNATIONAL

# VersaFiller™

## Another Great Oasis Product in the Aqua Pointe™ Series of Bottle Fillers

Enjoy the best of both water options; refreshing fountain water and a bottle filler unit for refillable bottles. The VersaFiller from Oasis accomplishes both tasks with ease and simplicity, and puts your location at the top of the refillable bottle trend, and making a bold statement about your concern for the environment.

The VersaFiller is also designed for the future. The alcove and activation button contain Freshield, which utilizes a silver-based antimicrobial compound. This is ideal for work-place settings, schools, university locations, and any public building.

The VersaFiller unit is available in two configurations. The PWSBF model can be retrofitted to existing P8AC and P8AM coolers, and provides an instant upgrade to those products already in the field, and shows your commitment to reducing wasteful plastic bottles at a low cost. The PWSBF is also designed for simplicity of installation, requiring only water tubing connection to the host P8, with no required electrical connections or separate drains.

The VersaFiller can also be purchased as a complete unit in combination with an accompanying P8AC series unit. Most P8AC models are configured within this new P8SBF family, and makes it convenient to order.

These Aqua Pointe VersaFiller models to deliver an advanced drinking water system with a great look, at a very competitive cost, to acquire, and to install.
